

# University of Iowa Neonatal Hemodynamics Fellowship

## Join in Iowa's tradition of collaboration!

Our culture of academic medicine is one of collaboration, where it's natural for specialists in cardiology to work closely with neonatologists to better understand complex physiology and develop appropriate care based on groundbreaking diagnostic tools.

## Fellowship Highlights

- ✓ One-year training based on the 2011 American Society of Echocardiography standards
- ✓ Hands-on training in the Pediatric Echocardiography lab
- ✓ Opportunity to observe cardiac MRI and fetal echocardiography
- ✓ Work in unrivaled facilities designed for specialty care
- ✓ Among the nation's first fellowship-trained specialists
- ✓ State-of-the-art simulators and imaging modalities
